# EDGE Expands its Portfolio with Acquisition of Leading Cybersecurity Company, OryxLabs

- *The acquisition aligns with EDGE's ongoing expansion into the field of cybersecurity*

EDGE, one of the world's leading advanced technology and defence groups, has announced its acquisition of OryxLabs, a prominent cybersecurity company based in Abu Dhabi. OryxLabs is providing tailored cybersecurity solutions to safeguard its clients from emerging cyber threats. With a strong focus on advanced research, engineering, and innovation, the company has been entrusted with addressing cybersecurity challenges at scale while delivering exceptional services to its clients. The acquisition gives EDGE the opportunity to expand its portfolio and provides it with advanced solutions to solve critical pain points in cybersecurity, both locally and internationally.

Mansour AlMulla, Managing Director and CEO of EDGE, said: "EDGE Group's rapid growth and increasing emphasis on creating sovereign capabilities necessitates pursuing opportunities that enhance our capabilities and expand our offerings. Adding OryxLabs into the Group is a logical step, enabling us to elevate our portfolio of advanced technology solutions. OryxLabs' proven track record and its ability to deliver on advanced solutions will provide tangible benefits to EDGE, our clients, and strategic partners. Together, we are well-positioned to navigate the evolving landscape of cybersecurity and offer unparalleled cybersecurity solutions."

Established in 2020, OryxLabs' strategy focuses on high scalability, rapid innovation, and engineering prowess to address complex cybersecurity issues. The company specialises in crafting modular solutions to cater for the needs of its clients. By leveraging its extensive expertise in Data Science, AI, Security research, and Big Data, OryxLabs has assembled an exceptional team of software developers who can effectively tackle complex cybersecurity challenges with precision and innovation.
