

Hungarian Minister of Defence Pays Official Visit to EDGE Group

EDGE, one of the world's leading advanced technology and defence groups, welcomed Kristóf Szalay-Bobrovniczky, Hungarian Minister of Defence, yesterday as part of an official visit to EDGE's headquarters and facilities in Abu Dhabi. The group was welcomed by Hamad Al Marar, Managing Director and Chief Executive Officer of EDGE Group.

During the visit, the delegation toured EDGE's manufacturing facilities at Tawazun Industrial Park before meeting with His Excellency Faisal Al Bannai, Chairman of EDGE Group, to discuss opportunities in industrial cooperation and knowledge sharing.

The visit is part of an ongoing effort between both countries to deepen bilateral ties, drive mutual growth across key sectors, and boost non-oil trade, which has risen threefold since 2019.
